# **CONTAINER MANAGEMENT**

## **FUNCTION**

*Container Management* adds functionality for manifest entry and container tracking, providing you all the tools to track the purchase and receipt of inventory items.

### **IMPACT**

With *Container Management* you can maximize your investment in your Microsoft Dynamics GP system by streamlining the entry of manifests and processing the receipt of all items in the container from a single window.

## **FEATURES**

- Complete shipment/manifest entry and tracking, including in-transit tracking of containers and their contents
- Allows receiving of all items in a container in one step
- Enter or import multi-container shipments, and track all containers at the shipment level
- Freight-on-board (FOB) receiving of goods before they arrive at your loading dock
- Allows drop-ship manifests for containers shipped directly to customers
- Landed cost apportionment by shipment or manifest for individual PO receipts
- Calculates landed cost at the shipment or manifest level
- Container optimization by volume and/or weight
- Allows FOB Financial Receipts, as an alternative to standard FOB Receiving, to recognize the value of your in-transit inventory without processing receipt transactions
- Integrates with Operations Core

### **BENEFITS**

- Streamlines the receiving process
- Provides complete visibility along your supply chain
- Reduces paperwork on the receiving dock

Contact your Microsoft Business Solutions<sup>TM</sup> reseller and discover how *Container Management* can work for your
