CUSTOMER CONSIGNMENTS

Customer Consignments adds consignment processing to Microsoft Dynamics® GP Sales Order Processing.

FUNCTION

*Customer Consignments* adds complete consignment processing management to Dynamics® GP *Sales Order Processing.*

IMPACT

With *Customer Consignments,* you can now manage your consignment orders and track your consignment inventory using a clean, straightforward workflow.

FEATURES

- Setup options allow you to define consignment order types by customer, by consignment stock location, or both
- Designate which customers are eligible for consignment and/or are consignment-only
- Items are tracked throughout the consignment life cycle, including shipments to customers, invoices for consignment sales, and returns of unsold items to stock
- Auto-posting of transfers between stock and consignment locations
- Seamless integration with *Operations Core* and *SOP Auto Invoice*

Contact your Microsoft Dynamics® GP partner and discover how *Customer Consignments* can work for your organization.
