

# SERIAL NUMBER EDIT

*Serial Number Edit provides the user with the capability to enter serial numbers for drop ship items on unposted and posted SOP invoices, and edit serial numbers for any item on posted invoices.*

## FUNCTION

*Serial Number Edit* enhances the serial number tracking capability of Microsoft Dynamics® GP. Standard functionality limits the tracking of serial numbers for items sold from in-stock inventory only. *Serial Number Edit* extends this functionality to include drop ship items, and allows editing of serial numbers for all items sold or in stock.

## IMPACT

With *Serial Number Edit*, you can enter the serial numbers of drop ship items before or after you process an invoice. Serial numbers on drop-ship POs linked to sales documents automatically update the corresponding items. And correcting serial numbers for in stock items is a simple, reliable process.

## FEATURES

- Easily enter/edit serial numbers for:
  - Drop ship items on posted invoices
  - Drop ship items on unposted invoices
  - Items on drop ship POs
  - Items currently in inventory
- Enter serial numbers on customer invoices, regardless of whether the items are drop ship items

## BENEFITS

- Save time by posting invoices with temporary serial numbers
- Ensure the accuracy of your inventory by correcting serial number errors

Contact your Microsoft Business Solutions™ reseller and discover how *Serial Number Edit* can work for your organization.

The screenshot shows the 'Sales Transaction Entry' window in Microsoft Dynamics GP. The main window displays an invoice for 'sa Fabrikam, Inc.' dated 4/12/2017. The invoice includes a table of line items:

Item Number	U of M	Invoice Quantity
128 SDRAM	Each	2
40K IDE	Each	1
333PROC	Each	1
ACCS-CRD-25BK	Each	1
HDWR-PRO-4886	Each	8

The 'HDWR-PRO-4886' item is highlighted, and a 'Drop Ship Serial Number Entry' dialog box is open. This dialog shows the item number 'HDWR-PRO-4886' and a list of serial numbers: CELLEXP0035, CELLEXP0036, CELLEXP0037, CELLEXP0038, CELLEXP0039, CELLEXP0040, CELLEXP0041, and CELLEXP0042. The 'Serial Numbers Assigned' field shows 8.00.
