

Customer Payment Portal for Microsoft Dynamics[®]

Microsoft Dynamics GP | Microsoft Dynamics 365 Business Central | Microsoft Dynamics NAV | Microsoft Dynamics AX

Improve Cash Flow | Automate Accounts Receivable | Overcome PCI Barriers

ePay Advantage offers the latest in online bill presentment and payment technology for enterprises. Send invoice notifications to your customers. Let your customers view and pay their invoices online. Eliminate double entry, wasted man hours, and endless journeys down a paper trail.

Streamline

ePay Advantage provides real-time payment processing and eliminates double data entry. It seamlessly integrates the payment back to your accounting system and automatically applies payments to invoices.

Secure

ePay Advantage is a PA-DSS certified solution. With ePay Advantage powered by PayFabric[®], merchants can remove the credit card entry point, as well as the transmission and storage of sensitive payment information, from their environments.

Save

ePay Advantage gives your customers the ability to check invoice and payment history at their leisure, reducing your call center demands.

Brand and Integrate

ePay Advantage has the flexibility to be designed to fit your company branding. In addition, its Single Sign On feature allows users to be passed into ePay from your website or portal without having to log in again.

Fit to Your Business Needs

ePay Advantage offers additional modules such as Installment Payment Plan, AutoPay, and more – each of which supports a unique business model and provides additional flexibility and convenience.

Electronic Bill Users Are...

1 2%

Less likely to leave

3 5%

More likely to pay their bills online

Today's customers expect the convenience of online billing. The good news? Giving your customers what they want also saves your company time and money.

A company processing an average of **600** invoices a month could spend over **\$70,000** a year using a manual, paper billing process.

Automating your collection process and switching to electronic billing can significantly lower your Accounts Receivable expenses. To find out how much you can save, contact us today.

Customer Payment Portal for Microsoft Dynamics[®]

- ✓ Generate recurring revenue or subscription invoices through predefined preferences
- ✓ Specify terms, frequency, and price level to specific line item detail
- ✓ Secure and simple API to allow integration with other eCommerce websites for subscription needs
- ✓ Payments can be automatically processed against recurring documents and seamlessly integrated to Microsoft Dynamics GP

“ePay Advantage has become our company's collection arm and has saved us from having to hire additional staff to support collection efforts. As our business grows, ePay grows with us. Our customers love the ease of use and it works seamlessly with GP, our financial ERP system. Our CFO also sleeps better at night knowing that we are doing everything we can do to secure customer credit card information.”

SHERI PINCE
Explore Information Services, LLC.

“Nodus Technologies has provided us with a product that has simplified our business processes while integrating seamlessly with business systems. With CCA and ePay, we have provided our CSRs and customers with the ability to quickly and accurately process credit card payments and receive account information. We couldn't be more pleased.”
