

## BARCODE GENERATOR POWER TOOL

for Microsoft Dynamics 365 Business Central

**Add 1D and 2D barcodes to your Microsoft Dynamics 365 Business Central reports.**

Insight Works' Barcode Generator PowerTool for Dynamics 365 Business Central empowers businesses to integrate 1D and 2D barcodes into their reports, fostering efficiency and interoperability with existing hardware and third-party applications. The app is designed for technically proficient users. It offers sample layouts, custom reporting capabilities, and the flexibility to enhance documents such as invoices, warehouse receipts, production orders, and more with various barcode formats.

Transform your business logistics with the Barcode Generator PowerTool – when precision, efficiency, and data integrity matter most.

### Key Benefits of Utilizing Barcode Generator PowerTool in Your Operations:

- **Improved Efficiency:** Enhances the efficiency of your operations by seamlessly integrating barcodes into reports, speeding up data processing, and reducing manual data entry errors.
- **Enhanced Interoperability:** Facilitates seamless integration with existing hardware and third-party applications by supporting various barcode formats, such as Datamatrix, QR Code, Code 128, and Code 39.
- **Customization Flexibility:** Allows you to tailor reports to your business needs, modifying existing reports to include barcodes or creating entirely new reports with barcodes.
- **Simplified Warehouse Management:** With compatibility for WMS Express and Warehouse Insight, barcodes can streamline warehouse operations, including stock tracking, order picking, and inventory management.

### Typical Users:

**Microsoft Partners:** Professionals who handle Barcode Generator PowerTool setup and client customization.

**Dynamics 365 Business Central Administrators:** Admins integrating barcodes into business reports.

**Business Central Developers:** Developers adding barcode capabilities to custom reports and extensions.

**Warehouse Managers:** Managers using the tool for efficient barcode-based inventory tracking.

**Supply Chain Managers:** Professionals improving supply chain processes through integrated barcode reports.

# Barcode Generator PowerTool

## Supports 1D and 2D Barcodes

Enables adding linear (Code39) and 2D (Data Matrix) barcodes to suit various business needs.

## Barcode Formats

Supports various barcode formats such as Datamatrix, QR Code, Code 128, and Code 39, ensuring broad compatibility.

## Integration with Business Central

Seamlessly integrates with Microsoft Dynamics 365 Business Central to add barcodes to any report, custom or pre-existing.

## Sample Reports Included

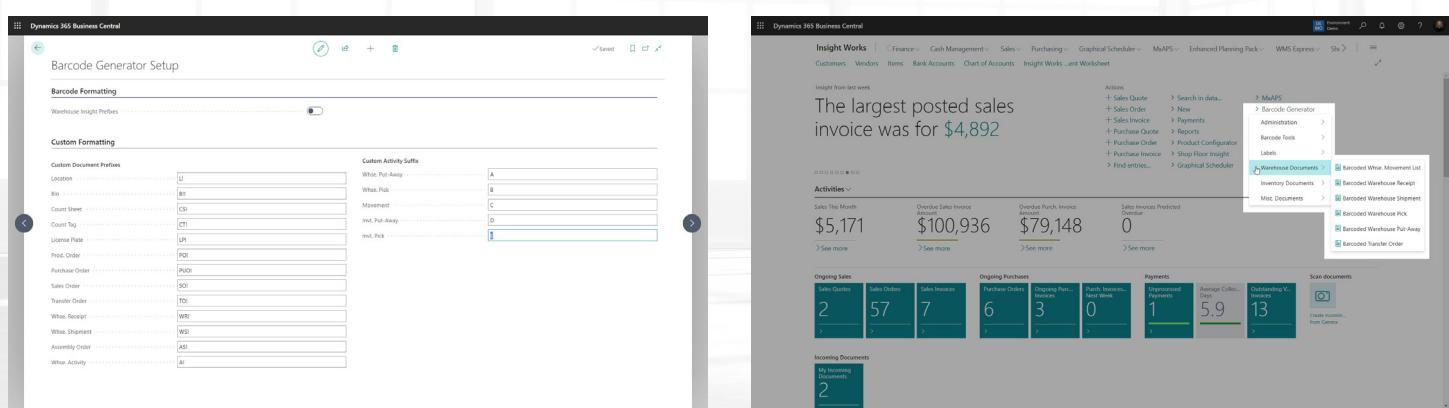

Comes with several sample reports, including warehouse documents, inventory documents, and miscellaneous ones, which can be used as-is or modified.

## Customizable Reports

Ability to modify existing reports such as invoices, order confirmations, and production orders to include barcodes or create brand-new reports with barcodes.

While the Barcode Generator PowerTool from Insight Works requires users to have some technical understanding of Dynamics 365 Business Central, it is designed to be user-friendly and accessible. To support users on their journey, Insight Works offers a range of comprehensive resources. This includes a robust knowledge base with download access to source code and report layouts and online forums where users can connect, share experiences, and troubleshoot together.
