

# WMS EXPRESS

for Microsoft Dynamics 365 Business Central

**Improve warehouse accuracy and  
boost efficiency with mobile device  
and barcode integration.**

WMS Express is a versatile, free, cloud-based warehouse management system for Microsoft Dynamics 365 Business Central, designed for businesses of all sizes - from warehouses with multiple locations to small retail outlets with stockrooms.

It bolsters your supply chain management capabilities by offering seamless mobile device integration and efficient inventory control. Catering to various levels of operational complexity, WMS Express supports major mobile platforms, thereby transforming the way you manage inventory, irrespective of the size or complexity of your storage facility.

## Customize and Conquer with Product Configurator

- **Efficiency Boost:** Streamlines all inventory management operations, saving valuable time and resources.
- **Increased Accuracy:** Reduces errors in inventory management through efficient barcode scanning technology.
- **Inventory Visibility:** Provides real-time inventory status, helping to maintain optimal stock levels and prevent overstocking or stockouts.
- **Scalability:** Supports expansive warehouses and small stockrooms, catering to businesses of all sizes.
- **Flexibility:** Facilitates management of both simple and complex warehouse operations, adapting to your specific business needs.
- **Seamless Integration:** Designed specifically for Microsoft Dynamics 365 Business Central Cloud, ensuring a smooth and seamless integration.
- **Device Compatibility:** Broad device support, including Windows and Android platforms, for an always-connected inventory management experience.
- **Cost Saving:** A free add-on, eliminating the need for additional software licensing from Insight Works.
